

OPEC Subsea - Commercial Vessels for Hire

Friendly team, commercially registered vessels, affordable rates

Call 1300 11 OPEC or email: info@opecsystems.com

OPEC offers vessel hire packages in a number configurations with both dry hire and fully manned vessels being available for both short and long term deployment.

OPEC has two boats for hire - OPEC1 and OPEC2. The vessels have been specifically designed to cater for inshore searches, inspection services, salvage/recovery, and general maintenance of your wharves, piers and bridges. Both vessels are very stable and are well suited as workboats, dive platforms, lift pontoons and survey vessels.

Our boats are commercially registered, and have all necessary equipment on board to undertake the job at hand. Both vessels are trailer able and can be hired with a tow vehicle and crew if required. Alternatively, for an additional charge, we can arrange drop off and pick up of the vessel for you.

OPEC also has a range of labour services available for hire included but not limited to commercial divers, coxswains and crew, and road transport drivers.

OPEC1

OPEC1 is a 10.80m long vessel operating in 2D survey. The vessel is equipped with a FASSI M10A 12 HIAB crane hydraulic system. It has twin Suzuki (DF) 115 four stroke engines and is capable of achieving 30knots at 4500rpm. Please contact us for further specifications.

OPEC2

OPEC2 is a 10.26m long Dumb Barge. OPEC2 can carry 5.0 tonnes of weight. The vessel is an excellent support platform for any marine construction project. Please contact us for further specifications.

OPEC Subsea

OPEC Subsea is a Business Area of OPEC Systems, a proven provider of quality services to complex projects. These projects range from working with the Australian Maritime Safety Authority (AMSA) protecting our shorelines by rapidly responding to oil spills, bulk fuel installation, construction and maintenance for major industrial corporations, to disposal of World War II chemical warfare agents for the Department of Defence. OPEC Systems has the resources and experience to exceed our clients' expectations.

Accreditations

Our comprehensive procedures and quality management systems have seen the Company achieve AS/NZS 4801:2001 (Occupation Health and Safety Management Systems), ISO9001:2008 (Quality Management Systems) and AS/NZS ISO 14001 (Environmental Management Systems) accreditations. OPEC is also OFSC accredited by the Federal Safety Commissioner.
