

BACKPACK SPRAYER

TECHNICAL SPECIFICATION

BACK PACK SPRAYER

Part No 6006PP (20 litre)
5994PP (15 Litre)

dispersant spray systems

Application

An operator-friendly backpack oil dispersant spray unit for use on beaches and intertidal zones. The 2000 series backpack sprayer is available in 15 litre (CP15) and 20 litre (CP20) versions. The sprayer is designed and built to comply with international safety standards with emphasis placed on operator comfort and safety.

Construction

Non-corroding Polypropylene tank with no opening below fluid level line. Unit is designed to be handled and serviced without the use of tools. Chemical resistant shoulder pads and waist belt.
