

VIKOMA SPILLCAT

TECHNICAL SPECIFICATION 912/05

Part No. T.B.A

Issue 1_PR281103

Application

The Vikoma Spillcat is an extremely versatile oil spill response craft due to its strength, stability and large working platform area. These features enable it to be fitted with various types of response equipment so that it can be utilised in many different applications, including boom deployment, dispersant spraying, oil recovery and beach clean-up operations.

The rugged and unsinkable Vikoma Spillcat folds & mounts on a special trailer for road transport. It can be towed to an incident and launched in 30 minutes.

Specifications

Length	5.2 metres
Beam	3.5 metres
Weight	500kg
Working area	13m ²
Payload	1,400kg
Displacement speed	6 knots
Unladen speed	Up to 20 knots
Draft unladen	150mm
Draft laden	350mm

Shipping Details

Spillcat on trailer	
Length	98 cm
Width	91 cm
Height	85 cm
Weight	80 Kg

General

High payload, folding catamaran for high stability that allows fast deployment coupled with a road legal towing ability.

UK Maritime and Coastguard agency (MCA) approved and certified for workboat use.

Construction

The hull is manufactured from galvanised mild steel and glass reinforced plastic (GRP) and has 18 internal bulkheads / buoyancy chambers. Non-slip deck.

Trailer

Twin axle
14" wheels
Fully galvanised mild steel construction C/W breaking unit
Tailboard c/w lights & connection lead, to towing vehicle.

Engine

60HP outboard petrol engine c/w tilt mechanism
Alloy propeller
Other engine options available on request

STANDARD EQUIPMENT

Console / seat assembly c/w built in 62 ltr fuel tank
Hinged seat
Detachable stainless steel side & stern rails
Fuel / water filter and fuel sender unit
All round 'D' section fender
Battery and charging system
'Keelguard' protection strip
2 metre stainless steel lighting pole, fitted with all-round white light
Hinged loading ramp, for loading & deploying oil spill equipment
4 x stainless steel deck cleats
